

## **What:** Building Performance Institute (BPI) Building Analyst certification class

**Why:** To get qualified for the HOME STAR program, or “Cash for Caulkers”. All indicators are pointing to Building Performance Institute (BPI) as the accreditation standard underlying a federal incentive program that is currently on the Senate floor. Get ahead. Stay ahead.

*President Obama on December 2 in describing the program:*

*“Standards for home performance contractor accreditation and Building Analyst auditor certification will be implemented by the **Building Performance Institute (BPI)** and through a national network of third party providers”*

**Who should attend:** Contractors and auditors looking to upgrade their certifications to the national recognized standard for building performance.  
**Looking for a “green job”? This is it.**

### **Class Schedule:**
